WORK EXPERIENCE

Front-End Developer (Intern)

Sep 2023 – Sep 2024

PureJim Limited, Lagos, Nigeria (Remote)

- Collaborated with a cross functional team to design and develop a comprehensive school management software, prioritizing efficiency, usability and security.
- Developed a wedding planning web app for couples, allowing them to share wedding details and manage gift registries seamlessly.
- Worked with a team of engineers to transform high flexibility designs into functional and dynamic web application that met customer requirements using agile framework.

Quality Assurance Engineer (Intern)

Sep 2023 – Feb 2024

Lendastack, Lagos, Nigeria (Remote)

- Conducted manual and automated testing to identify bugs and ensure software functionality aligned with requirements.
- Analyzed product features and recommended changes to enhance them, to make them more efficient and user friendly
- Planned, created and carried out test cases on the LendaStack software.
- Worked closely with the product development team to ensure timely delivery of products and verified that the final product meets the Acceptance Criteria

PERSONAL PROJECTS

SIWES Logbook

I designed and developed an electronic logbook system tailored for the Students Industrial Work Experience Scheme (SIWES). This system allows students to log and manage internship activities digitally, simplifying daily task recording, supervisor tracking and documentation.

- **Technology Stack:** HTML for structuring content, Tailwind CSS for styling and responsive design, PHP for backend processing, and MySQL for database management.
- **Github Link:** <https://github.com/Enigmatic-Eni/Siwes-Logbook>

Oboh Draws

Designed and developed a portfolio for an artist, tailored to highlight and showcase their work effectively. The portfolio features a responsive design, seamless navigation, and engaging visual elements, optimized for both desktop and mobile devices.

- **Technology Stack:** Next.js for efficient and scalable development, Tailwind CSS for styling and responsiveness.

Cookify

I developed a recipe application designed to provide a comprehensive cooking experience. Users can search for a recipe using the food name and view the step-by-step cooking instructions. The app utilizes theMealDB API to fetch a wide variety of recipes and ingredient details.

- **Technology Stack:** JavaScript, Tailwind CSS for styling and responsive design, and theMealDB API for recipe data.

EDUCATION

Lagos State University, Ojo

Bachelor of Computer Science

2024

SKILLS

Hard Skills

Languages: HTML, CSS, JavaScript, TypeScript, PHP, SQL

Technologies: React, TailwindCSS, Git, GitHub

Tools: Microsoft Office Suite, Postman, Jira

Soft Skills: Team Playing, Critical Thinking, Adaptability, Creativity, Leadership, Time Management, Communication

EXTRACURRICULAR ACTIVITIES

Programming Facilitator

Feb 2023 – Present

Ononiwu Foundation in Lagos, Nigeria

- Facilitated programming workshops for **15+** teenagers, teaching foundational coding concepts.
- Introduced **90%** of students to HTML and CSS for the first time, guiding them through practical exercises and projects.
- Achieved a **65%** completion rate, with students successfully building their first web page by the end of the workshop

Events Coordinator

Jan 2023 – Aug 2023

Google Developers Students Club, Lasu Chapter

- Organized and held virtual events to foster participation within the school tech community.
- Promoted events using different platforms and ensuring that school tech community is aware of upcoming activities.
- Handled the scheduling of events, ensuring that they do not clash with other school activities.
